Other Do2Learn Products:

Make-A-Schedule

Create your own custom schedules and story strips with this easy-to-use program.

- * Access thousands of color Do2Learn picture communication cards
- * Includes ready-made schedules and story strips, or make your own from scratch
- * Import your own images and photographs into forms
- * Toggle between 6 languages or rename any image to suit your needs
- * Print and save work in multiple formats
- * Tutorials and example forms will help you get started quickly

Faceland

Faceland is a comprehensive learning program that includes 17 activities to help children interpret parts of a face and understand basic human emotions.

- * Six interactive 'schools' where each emotion is explained using videos and photos
- * Eleven fun games to practice reading feelings in faces
- * Based on a library of over a thousand real faces to aid in generalization
- * Extensive student reporting for IEP and progress monitoring included
- * Over 30 hours of activities for understanding emotions & facial expressions
